It is an expectation that all students wear full school uniform and that the standard of behaviour displayed will be consistent with the school's Code of Behaviour at all times.

**Please carefully complete and return the attached consent form.**

This event will involve your child being trained by Macquarie University scientists and students in how to demonstrate fun, hands-on science activities to younger students.

Your child will be supervised by Chifley College and NISEP staff members during the event. **Your child may be photographed and/or filmed during the event.** These recordings may be shared through, for example, print media stories and on the internet. Please provide permission for us to take and use photos/recordings of your child on the consent form.

We will be asking your child to respond to anonymous pre- and post-event feedback surveys. Questions will include what they liked/disliked about the event and measurements of their aspirations towards further education and studying science. This allows us to improve the program and do the best we can for our student participants. Results will be included in reporting to the school, the university and funding bodies, in research publications, and on promotional materials, such as the NISEP website and brochures. The surveys are anonymous and your child will not be identified throughout this process.

We look forward to running our Chifley School Science Shows with the help of your child.
